Shaw, A. H., & Stoll, S. K. (Accepted 2018). *The error in reasoning when using disability policy: "Go to legal- they will tell us what to do*. Reno, NV: Western Society of Kinesiology and Wellness.

New Faces at Center, and Graduate Students

Donghyuk Shin has arrived as a visiting scholar at the Center for ETHICS* for this coming school year. Dong Hyuk (pronounced: Dong-He-Oak) Shin is excited to join the Center for the ETHICS* as a research scholar. He is originally from Seoul, South Korea. He has lived in the U.S. since 2004. He completed his M.S. at Florida State University and his Ph.D. at the University of Iowa. After getting a doctoral degree, he taught at Washington State University in their Sport Management program for the past two years. His research interests are 1) how some colleges and universities put them “on the map” with their successful athletic programs and 2) sport and nationalism, especially in the context of national sports teams as symbols of community building and pride. He lives in Pullman with his wife and daughter. If there’s anybody who commutes from Pullman, please let him know at donghyuk.shin@wsu.edu.

Mark Sowa, Dr. Stoll’s 39th doctoral student, is in his second year of working with Dr. Stoll in character education and moral development. Mark is entering his eighth season as the Head Women's Swimming & Diving Coach at the University of Idaho. Mark holds a Master’s degree in American History from Brown University. Mark was a Phi Beta Kappa graduate in both history and philosophy from The American University in Washington DC where he did his undergraduate. Mark has been a Division I swimming coach since 1999 working at Brown University, University of Richmond, University of Maryland, Harvard University, and Wagner College before coming to Idaho. Mark’s research focus is on the phenomenological experience of female swimmers.

Erik Luvaas, Dr. Stoll’s 40th doctoral student, is currently an assistant professor of recreation therapy at Sacramento State University in Sacramento, CA. He is a Ph.D. Candidate in the Recreation, Sport, and Tourism Management Program at University of Idaho. Prior to beginning his doctoral program, he was the Recreational Therapist and Program Director for the Recreation Therapy & Movement Arts Program at Shriners Hospitals for Children in Portland. He was also the Youth Sports Program Manager for the nonprofit Adaptive Sports Northwest. He has also worked as a Rehabilitation Therapist at Oregon State Hospital in Salem and a rock climbing instructor and challenge course facilitator for many years. Erik is in the process of completing his dissertation research on optimal forms of nature engagement for psychophysiological stress reduction. In his free time, Erik enjoys spending time outside with his wife and two young daughters. Some of his favorite recreation activities are mountain biking, snowboarding, hiking, and slow walks in the forest.

Elaine Foster, Dr. Stoll’s 41st doctoral student, has been heavily involved in sport throughout her life, including participating in team sports, individual competitions, and outdoor adventures! Some of her favorites include backpacking in the Idaho wilderness, cross country skiing, trail running, triathlon, strength training, and badminton. Of course, Elaine feels that these activities are the best when accompanied by her husband Jake. She obtained her bachelor’s degree in physical education with an emphasis in exercise science, and her Master of Physical Education-Athletic Administration degree from Idaho State University (ISU). From 2010 to 2018, Elaine worked for the Sport Science and Physical Education department at ISU. Her most recent role for the department was a Clinical Instructor where she taught a variety of undergraduate courses to the physical education, exercise science, sport management, and outdoor education students.

She is also currently serving as the past president for the Society of Health and Physical Educators (SHAPE) Idaho. Elaine's research interests revolve around girl's and women's experiences in sport and physical activity.

Brock Morris, Dr. Stoll's 42nd doctoral student, grew up in southern Idaho. He started his collegiate career at the University of Idaho in the fall of 2010. During Brock's undergraduate experience he was a member of the Delta Chi Fraternity and worked with Campus Recreation in the Intramural Sports department. He grew up playing a variety of sports and continues to have a passion for competition today. Brock received his B.S. in Exercise Science and Health in 2014. Brock then continued at the University of Idaho to obtain his M.S. in Movement and Leisure Sciences with an emphasis in Recreation, Sport, and Tourism Management in May of 2017. Following graduation, Brock married his wife, another Vandal Alumni, and they moved to Flagstaff, AZ where he worked as the Intramural Sports and Summer Youth Programs Coordinator for Northern Arizona University. Brock and his wife had their first child, Brock Jr., on May 6th, 2018, prior to returning back to Idaho. Brock will be starting the doctoral program in the fall of 2018 in Education focusing on Sport Ethics and Character Development. He plans to continue contributing to research in the field of Sport Ethics and Character Development and help develop critical thinkers at the collegiate level as a professor.

Trevor Punnea, Dr. Stoll's 43rd doctoral student, graduated from the University of Idaho with a B.S. in Psychology before facilitating community and behavior intervention programs. He gained his M.S. in Therapeutic Recreation from the University of Wisconsin-La Crosse before working with the City of Eugene on Adaptive Recreation. During his time there he helped create tailored therapeutic programs to people of all abilities. Trevor is currently pursuing a Ph.D. in Healthy Active Lifestyles at the University of Idaho and teaches in the Recreation Department. Trevor is a competitive disc golfer and disc golf course designer. He hopes to make a career for himself by designing pitch and putt style disc golf courses for schools and municipal organizations to help introduce children to non-normative sports and facilitate community integration through recreational opportunities.
