

Question 9: Label the Above model with each of the following structures:

- Hippocampus
- Amygdala
- Cingulate cortex
- Thalamus
- Fornix
- Mammillary bodies
- prefrontal cortex

Question 10: Draw circles and label roughly where you would find the nucleus accumbens and Ventral tegemental area (VTA)

**Written Paragraph:** Now write a brief story of an event in the life of an individual – typical/ normal or strange as you wish. As you tell the story include be sure to include plot moments that will directly involve three of the following: the hippocampus, amygdala, prefrontal cortex, nucleus accumbens and VTA. Make note in parenthesis in the plot where each brain structure would come into play and what it would be doing.
