HOW TO ACCESS ERESERVE ITEMS

1) Go to the UI Library homepage (www.lib.uidaho.edu).
2) Select “Reserve” from the choices in the left-hand column.
3) Select the link to perform a “Course Reserve Search”.
4) You can search for a class either by department (i.e. E for English) or the professor’s last name (i.e. T for Thomas).
5) Electronic resources will appear at the top of the page; books or files on physical reserve will appear at the bottom of the page. When you click on the citation links for the ereserve readings, you will be prompted to enter the following username and password information:

   Username: reserve
   Password: Ei8erg

Just so you know, both fields ARE case sensitive. This can be a major source of grief and anxiety for students and faculty alike. So please be aware!

Best of luck. If you have any questions, please call me at 885-6495.
