Opportunity of a Lifetime

Dear Young Citizen,

You are in the midst of a grand transition to a new **American identity**, an identity of unprecedented vitality where *you*, the youth, are championed. It is the American way to triumph and innovate. It is now a distinctly **American honor** to witness the birth of an age *free* from the burdens of illness and suffering, *free* from all the weaknesses associated with growing old. **We are together entering Utopia.**

The Grand Transition

Be assured that the grand transition will be a **joyful** one. Though some change will be abrupt, it represents the exciting realization of what will be known as **The New American Way**.

Expect changes that :

- **Incorporate fluidly** into personal life
- Present a new wealth of **economic opportunity**
- Mark a cleaner, **more sustainable path**.

The American's Proud Duty

You, the American Citizen, *hero and patriot*, are here advised that effective January, 1st 2012 lifespans will be capped at forty years. 'Conclusion Chips' will be implanted into each citizen's right shoulder in order to ensure this process is managed with ease. Children less than twelve months will instead be eligible for genetic modification.

Outreach

The Office of Condensed Life Enrichment has outreach programs available through municipal, state, regional, and national offices. Visit <http://www.ocle.gov/rip> for more information about the Office of Condensed Life Enrichment, its outreach programs and locations near you.

Cum Robur Iuuentae! **'With the strength of youth'** we will realize our destiny! We are each of us pillars of **fortitude** and **ambition!**

Attentively Yours,

Grim Reaper
Soul Collector, OCLE
