Before completing this form, refer to the "Board Policy Section III.G. Program Approval and Discontinuance.

1. Briefly describe the nature of the request e.g., is this a new program (degree, program, or certificate) or program component (e.g., new, discontinued, modified, addition to an existing program or option).

   The Department of Materials, Metallurgical, Mining, and Geological Engineering proposes to change its name to the Department of Materials Science and Engineering. The State Board of Education recently approved the discontinuance of programs in Mining Engineering and the undergraduate program Geological Engineering. This left two programs, Materials Science and Engineering and Metallurgical Engineering in the department, the graduate program in Geological Engineering has been relocated to the Department of Civil Engineering. A department name change is therefore necessary to reflect the current structure of the department. To simplify the department name, the faculty would like the name to be “Materials Science and Engineering”. Both of the current degrees, Materials Science and Engineering and Metallurgical Engineering will be retained in their current form.

2. Briefly describe how the institution will ensure the quality of the program (e.g., accreditation, professional societies, licensing boards, etc.).

3. Duplication--Is this request unique to the system? If not, briefly describe the rationale for the duplication.

4. Succinct statement of need for program or program modification. Include student and state need, demand, and employment potential. Attach a Scope and Sequence, DPTE Form Attachment B, for professional-technical education requests. (Use additional sheets if necessary.)

   Describe how this request is consistent with the State Board of Education's policy or role and mission of the institution. (i.e., centrality).

5. Resources--Faculty/Staff/Space Needs/Capital Outlay. (Use additional sheets if necessary.):

   There is no fiscal impact of this department name change.
