Facult/Staff Handbook [FSH] □ Addition ☑ Revision* □ Deletion* □ Emergency
Minor Amendment □

Chapter & Title: FSH 1565 – Ranks & Responsibilities

All policies must be reviewed, approved and returned by a policy sponsor, with a cover sheet attached to apm@uidaho.edu or fsh@uidaho.edu respectively.
*Note: If revision/deletion request original document from apm@uidaho.edu or fsh@uidaho.edu, all changes must be made using “track changes.”

Originator(s): Subcommittees of Faculty Affairs formed to review P&T Process since 2006
(Please see FSH 1460 C)

Policy Sponsor: (If different than originator.) Faculty Affairs - Don Crowley 4/29/09 Ken Locke 8/31/09

Reviewed by General Counsel _x__Yes ___No Name & Date: ___Hoey Graham 8/31/09____

I. Policy/Procedure Statement: Briefly explain the purpose of proposed addition, revision, and/or deletion to the Faculty/Staff Handbook or the Administrative Procedures Manual.
changes to this policy began in 2006 with the formation of a sub-committee of Faculty Affairs to review and clarify current P&T processes. See http://www.webs.uidaho.edu/facultycouncil/CommitteeWebPages/Agenda_Minutes_Faculty_Affairs_P&T_Subcommittee.htm for all records of this sub-committee’s work. Then in 2007-08 a second sub-committee was formed at the recommendation of the first sub-committee to review policy and a request to simplify the forms by the Provost, to also include interdisciplinary activities, tie AE to PD, connect to Strategic Action Plan goals. See http://www.webs.uidaho.edu/facultycouncil/CommitteeWebPages/Agenda_Minutes_Fac_Affairs_Subcommittee_PDAE.htm for records of this sub-committee’s work.

II. Reason/Rationale: Reason this addition, revision, and/or deletion is necessary, if different than above?
Many discrepancies were found in policy, forms and policy were inconsistent, unclear processes, process changes.

III. Fiscal Impact: What fiscal impact, if any, will this addition, revision, or deletion have? none

IV. Related Policies/Procedures: Describe other policies or procedures existing that are related or similar to this proposed change.
FSH 1565, 3050, 3520, 3420, 3140.

V. Effective Date: This policy shall be effective on July 1, or January 1, whichever arrives first after final approval (see FSH 1460 D) unless otherwise specified in the policy.

If not a minor amendment forward to: ___in review with general counsel________

ACADEMIC RANKS AND RESPONSIBILITIES

PREAMBLE: This section defines the various academic ranks, both faculty and non-faculty (e.g. graduate student appointees and postdoctoral fellows), and their responsibilities. Subsections A, C, D, E, F, and I should be read in conjunction with the policy and procedures concerning granting of tenure and promotions in rank which are contained in 3520 and 3560 (subsection I only in conjunction with 3560). Most of the material assembled in this section was a part of the original 1979 Handbook. The material in section I was added July, 1987. The definitions of 'postdoctoral fellow' (J-5), 'graduate assistant' (K-3) and 'research fellow' (K-4) were revised in July 1996. Section J-1, voting rights for lecturers, was changed in July 2001. Section A was substantially revised in July 1994, so as to underline better the importance of both teaching and scholarship. At that time the so-called "Voxman Amendment" (the addition of 'in the classroom and laboratory' to the list of possible venues wherein the evaluation of scholarship might take place) made its first appearance. Section A underwent additional substantial revision in July 1998 and July 2006, always with the hope of creating greater clarity in a complex subject. Extensive revisions along those same lines were made to B (entirely new and in 2008 B was moved to 3570), C, D, and E, in July 1998. Further, less extensive revisions were made to C-1, D-1, and D-1 in July 2000. In July 2008, this section was reorganized to better reflect classifications as stated in FSH 1520 Article II, no substantive changes were made to policy. In 2009 changes were made to reflect changes to the faculty position description and evaluation forms integrating faculty interdisciplinary activities into the evaluation processes. Also, ranks for Associated Faculty in F were removed because they were not comparable to university faculty ranks which require a burdensome promotion process as detailed in 3560. Those currently holding a specific rank in adjunct or affiliate will retain that privilege. Further information may be obtained from the Provost’s Office (208-885-6448) or the Office of the Faculty Secretary (208-885-6151). [rev. 7-98, 7-00, 7-01, 7-06, 1-08]

I. Qualification of Non-faculty Members for Teaching UI Courses

A. INTRODUCTION. [rev. 7-98]

A-1. The principal functions of a university are the preservation, advancement, synthesis, application, and transmission of knowledge. Its chief instrument for performing these functions is its faculty, and its success in doing so depends largely on the quality of its faculty. The University of Idaho, therefore, strives to recruit and retain distinguished faculty members with outstanding qualifications.

In order to carry out its functions and to serve most effectively its students and the public, the university supports the diversification of faculty roles. Such diversification ensures an optimal use of the university’s faculty talents and resources. [rev. 7-06]

Diversification is achieved through developing a wide range of faculty position descriptions that allow the faculty to meet the varying responsibilities placed upon the institution, both internally and externally. While the capabilities and interests of the individual faculty members are to be taken into account, it is essential that individual faculty position descriptions are consonant with carrying out the roles and mission of the university, the college, and the department. Annual position descriptions are developed by the department head in consultation with the department faculty and with the incumbent or new faculty member. In each college, all position descriptions are subject to the approval of the dean and must be signed by both department head and
UI FACULTY-STAFF HANDBOOK
Chapter I: HISTORY, MISSION, GENERAL ORGANIZATION, AND GOVERNANCE
Section 1565: Academic Ranks and Responsibilities
January 2008

faculty member. If the faculty member, department head, and dean are unable to reach agreement on the position description, the faculty member may appeal the department head’s decision to the Faculty Appeals Hearing Board [3840].

As indicated in Sections 3320-A-1 d, 3520-H.2, 3560-44, faculty performance evaluations that are used for yearly reviews as well as for promotion, tenure, and post-tenure decisions are to be based on faculty members’ annual position descriptions. [ed. 1-08]

Faculty members shall conduct themselves in a civil and professional manner (see FSH 3160 and 3170);

B. DEFINITIONS:

B-1. Advancement: focuses on fostering relationships, building partnerships, creating awareness and generating support with alumni, donors, leaders, business partners, legislators and the community for the university’s mission in academics, scholarship and outreach (see the office of University Advancement at http://www.uidaho.edu/givetoidaho/meetourpeople/universityadvancementvpoffice.aspx).

B-2. Cooperative education: a structured educational strategy that blends classroom studies with learning through productive work experiences. It provides progressive experiences for integrating theory and practice. Co-op education (including internships and externships) is a partnership between students, educational institutions and employers, with specified responsibilities for each party.

B-3. Distance education: the process through which learning occurs when teachers, students, and support services are separated by physical distance. Technology, sometimes in tandem with face-to-face communication, is used to bridge the distance gap.

B-4. Extension Service: Extension is an outreach activity that generally involves non-formal educational programs that transfer knowledge from the university to help improve people’s lives through research in areas like agriculture and food, environment and natural resources, families and youth, health and nutrition, and community and economic development.

B-5. Extramural Professional Service: refers to activities that extend service beyond the university and can include elements of service, outreach, scholarship, and/or teaching.

B-6. Interdisciplinary: “an activity that involves teams or individuals that integrates information, data, techniques, tools, perspectives, concepts, and/or theories from two or more disciplines or bodies of specialized knowledge to advance fundamental understanding or to solve problems whose solutions are beyond the scope of a single discipline or field of research practice.”

B-7. Professional Development: a learning process that expands the capacity of the faculty member to advance in the responsibilities as defined in his/her position description and aligns with the university’s goals. Examples include but are not limited to participation in conferences, continuing professional education (including credit and noncredit courses) and other activities that enhance a faculty member’s expertise and ability.

B-8. Service learning: an activity that integrates student learning with service and civic engagement to meet real community needs and achieve learning outcomes. Service-learning can be used in curricular settings (i.e. academic course) or co-curricular settings, (e.g. ASUI’s volunteer/civic engagement programs).

B-9. Technology transfer: a process through which knowledge, technical information, and products developed through various kinds of scientific, business, and engineering research are provided to potential users. Technology transfer encourages and accelerates testing and using new knowledge, information and products. The benefit of technology transfer may occur either at the community (public) or firm (private) level.

1 National Academy of Science
B-10. Unit Administration: includes assisting higher administration in the assignment and evaluation of the services of each member of the unit’s faculty and staff; promoting effective leadership of personnel and management of unit resources; providing leadership in the development and implementation of unit plans; providing for open communication with faculty and staff; fostering excellence in teaching, scholarship and outreach for faculty, students, and staff in the unit; effectively representing all constituents of the unit; and continuing personal professional development in areas of leadership.

C. RESPONSIBILITY AREAS: Faculty members are expected to contribute in each of the four major responsibility areas (C-1 through C-4 below). Expectations are more specifically defined in the individual position description and are consistent with unit by-laws. Each responsibility area may include activities in advancement, extramural professional service, interdisciplinary, and/or professional development.

C-1. TEACHING AND ADVISING: The university’s goal is to engage students in a transformational experience of discovery, understanding and global citizenship. Faculty achieve this goal through effective instructing, advising and mentoring of students.

a. Instruction: Effective teaching is the foundation for both the advancement and transmission of knowledge. The educational function of the university requires the appointment of faculty members devoted to effective teaching. Teaching may take many different forms and any instruction must be judged according to its central purposes and the conditions which they impose. Active participation in the assessment of learning outcomes is expected of all faculty at the course, program, and university-wide levels. Individual colleges and units have the responsibility to determine appropriate teaching loads for faculty position descriptions. Teaching appointments must be reflected by hours and level of effort spent in teaching activity, and justified in position descriptions. Any adjustments to a teaching appointment (e.g. teaching unusually large classes, team-teaching, teaching studios or laboratories, intensive graduate or undergraduate student mentoring, technology-enhanced teaching, and others) must be documented in the position description. [rev. 7-06]

The validation of instruction may include Student Evaluations of Teaching (SET’s), peer evaluations, self assessment, documentation of effective or innovative teaching, teaching recognition and awards, and teaching loads.

b. Advising and/or Mentoring Students: Advising students is also an important faculty responsibility and a key function of academic citizenship. Student advising may include: (1) overseeing course selection and scheduling; (2) seeking solutions to conflicts and academic problems; (3) working with students to develop career goals and identify employment opportunities; (4) making students aware of programs and sources for identifying employment opportunities; (5) facilitating undergraduate and graduate student participation in professional activities (e.g. conferences, workshops, demonstrations, applied research); and (6) serving as a faculty advisor to student organizations or clubs. Advising also includes attendance at sessions (e.g. workshops, training courses) sponsored by the university, college, department or college, or professional organizations to enhance a faculty member’s capacity to advise. [add. 7-06, rev. 1-08]

Effective advising performance may be documented by: (1) the evaluation of peers or other professionals in the department or college; (2) undergraduate or graduate student advisees’ evaluations; (3) level of activity and accomplishment of the student organization advised; (4) evaluations of persons being mentored by the candidate; (5) number of undergraduate and graduate students guided to completion; and (6) receiving awards for advising, especially those involving peer evaluation. [add. 7-06]

C-2. Scholarship and Creative Activities: Scholarship is creative intellectual work that is communicated and validated. The creative function of a university requires the appointment of faculty members devoted to scholarship and creative activities. The university promotes an environment that increases faculty engagement in interdisciplinary scholarship. The university’s Carnegie designation as “research university high”, fosters an emphasis on scholarly and creative activities.
Scholarship and scholarly-creative activities take diverse forms and are characterized by originality and critical thought. Scholarship and scholarly-creative activities must be validated through internal and external peer review or critique and disseminated in ways having a significant impact on the university community and/or publics beyond the university. Active scholarship and scholarly-creative activities are ongoing obligations of all members of the faculty. [rev. 7-06]

The basic role of a faculty member at the University of Idaho is to demonstrate and validate continuing sound and effective scholarship in the areas of teaching and learning, artistic creativity, discovery, integration, and outreach/application/engagement. While these areas may overlap, these distinctions are made for purposes of defining position descriptions and for developing performance standards. Units and colleges shall adopt criteria for the evaluation of scholarship and creative activities. Demonstrated excellence that is focused in only one of these scholarship and creative activity areas is acceptable if it is validated and judged to be in the best interests of the institution and the individual faculty member. [rev. 7-06]

Assessment of scholarship, in self-evaluation and peer evaluation, is an ongoing expectation for faculty members of the university. Assessment of scholarship within and across disciplinary boundaries requires standards for evaluation that adequately describe the phases of scholarship. In assessment of scholarship, faculty members are encouraged to use the following six standards (from Glassick, et al. Scholarship Assessed: An Evaluation of the Professoriate 1997): [add. 7-06]

- **Clear goals**—Does the scholar state the basic purposes of his or her work clearly? Does the scholar define important questions in the field?
- **Adequate preparation**—Does the scholar show an understanding of existing scholarship in the field? Does the scholar bring the necessary skills to his or her work? Does the scholar bring together the resources necessary to move the project forward?
- **Appropriate methods**—Does the scholar use methods appropriate to the goals? Does the scholar apply effectively the methods selected? Does the scholar modify procedures in response to changing circumstances?
- **Significant results**—Does the scholar achieve the goals? Does the scholar’s work add consequentially to the field? Does the scholar’s work open additional areas for further exploration?
- **Effective presentation**—Does the scholar use a suitable style and effective organization to present his or her work? Does the scholar use appropriate forums for communicating work to its intended audiences? Does the scholar present his or her message with clarity and integrity?
- **Reflective critique**—Does the scholar critically evaluate his or her own work? Does the scholar bring an appropriate breadth of evidence to his or her critique? Does the scholar use evaluation to improve the quality of future work?

a. Scholarship in Teaching and Learning: can involve classroom action research (site-specific pedagogy), qualitative or quantitative research, case studies, experimental design and other forms of teaching and learning research. It consists of the development, careful study, and validated communication of new teaching or curricular discoveries, observations, applications and integrated knowledge and continued scholarly growth. Evidence that demonstrates this form of scholarship might include: publications and/or professional presentations of a pedagogical nature; publication of text books, laboratory manuals, or educational software; advancing educational technology; participation in workshops related to teaching and learning; development and dissemination of new curricula and other teaching materials to peers; and individual and/or collective efforts in securing and carrying out education grants. [ed. 7-00, rev. 7-06]

The validation of scholarship in the area of teaching and learning is based in large measure on review by the faculty member’s peers both at the University and at other institutions of higher learning. [rev. 7-06]

b. Scholarship in Artistic Creativity: involves validated communication and may be manifested by significant achievement in an art related to a faculty member’s work, such as musical composition, artistic performance, creative writing, mass media activity, or original design. [rev. 7-06]
The validation of scholarship in the area of artistic creativity is based in large part on the impact that the activity has on the discipline and/or related fields as determined by the peer review process. Many modes of dissemination are possible depending on the character of the art form or discipline. For example, a published novel or book chapter for an anthology or edited volume or similar creative work is regarded as scholarship. Each mode of dissemination has its own form of peer review that may include academic colleagues, practitioner or performance colleagues, editorial boards, and exhibition, performance, or competition juries. [rev. 7-06]

c. Scholarship in Discovery: involves the generation and interpretation of new knowledge through individual or collaborative research. It may include: novel and innovative discovery; analyzing and synthesizing new and existing knowledge and/or research to develop new interpretations and new understanding; research of a basic or applied nature; individual and collaborative effort in securing and carrying out grants and research projects; membership on boards and commissions devoted to inquiry; and scholarly activities that support the mission of university research centers. [rev. 7-06]

Evidence of scholarship in this area may include: publication of papers in refereed and peer reviewed journals; published books and chapters; published law reviews; citation of a faculty member’s work by other professionals in the field; published reviews and commentary about a faculty member’s work; invited presentations at professional meetings; seminar, symposia, and professional meeting papers and presentations; direction and contribution to originality and novelty in graduate student theses and dissertations; direction and contribution to undergraduate student research; awards, scholarships, or fellowships recognizing an achievement, body of work, or career potential based on prior work; appointment to editorial boards; and significant scholarly contributions to university research centers. The validation of scholarship in the area of discovery is based on evaluation by other professionals in the faculty member’s discipline or sub-discipline. [rev. 7-06]

d. Scholarship of Integration: often interdisciplinary and at the borders of converging fields, is the serious, disciplined work that seeks to synthesize, interpret, contextualize, critically review, and bring new insights into, the larger intellectual patterns of the original research. Similar to the scholarship of discovery, the scholarship of integration can also seek to investigate, consolidate, and synthesize new knowledge as it integrates the original work into a broader context. It often, but not necessarily, involves a team or teams of scholars from different backgrounds working together, and it can often be characterized by a multidisciplinary or interdisciplinary investigative approach. The consolidation of knowledge offered by the scholarship of integration has great value in advancing understanding and isolating unknowns. Beyond the differences, the scholarship of integration can include many of the activities of scholarship of discovery and thus may be rigorously demonstrated and validated in a similar manner. [add. 7-06]

e. Scholarship of Outreach/ Application/ and Engagement: These activities apply faculty members’ knowledge and expertise to issues that impact individuals, communities, businesses, government, or the environment. Examples may include: economic development; environmental sustainability; stimulation of entrepreneurial activity; integration of arts and sciences into people’s lives; enhancement of human well being; and resolution of societal problems. Like other forms of scholarship and creative activities, the scholarship of outreach/application/engagement involves active communication and validation. Examples of validation may include (but are not limited to): peer reviewed or refereed publications and presentations; patents, copyrights, or commercial licensing; adoption or citation of techniques as standards of practice; invited presentation at a seminar, symposium or professional meeting; and citations of the faculty member’s work. Is the reduction to practice of scholarly knowledge to address societal problems, challenges, and understanding. This area of scholarship is a primary activity of and extension, although it is a shared responsibility of all faculty. The acts of application and engagement often occur simultaneously, but may occur independently. Application and engagement often follow discovery, however they can and should initiate new discovery. It may be demonstrated by: transfer of new knowledge, new technologies and new integrated understandings into broader societal application; acceptance and adoption of new or modified practice with positive outcomes; licensing and commercialization of new technologies, processes or other intellectual property; and application and engagement of one’s scholarly expertise to serve society through cooperative relationships with individuals, groups, and agencies. [add 7-06]

Broadly, the scholarship of application and engagement seeks: to identify, analyze, and solve problems of citizens,
C-3. OUTREACH and EXTENSION: Is an essential component of the University’s land-grant mission. Outreach activities are originated by every unit on UI’s Moscow campus and from each of the University’s physical locations around the state.

Outreach and Extension includes a wide variety of activities, including, but not limited to, (a) extension (see 1565 B); (b) teaching, training, certification, volunteer development, unpaid consultation, and other dissemination of information dissemination to the general public, practitioner, and specialty audiences; (c) volunteer development and establishment/maintenance of relationships with private and public industries, organizations, and communities. Delivery mechanisms include distance education, service learning, cooperative education, technology transfer, non-credit courses, and publications. Most of the examples provided, such as distance education, are not exclusively outreach. Instead, they lie at the intersection of outreach and teaching or research. Likewise, professional services may be associated with teaching, scholarship, or university service and leadership. A faculty member’s position description specifies where his or her outreach activities will be counted, as well as governmental agencies.

Outreach and Extension activity may include: (1) teaching non-credit classes, workshops, and short courses; (2) recruiting, training, and supervising paraprofessionals and volunteers; (3) providing unpaid consultation to individuals, businesses, and other professionals; (4) providing information or technology transfer support through mass media; (5) providing leadership, facilitation, or subject-matter expertise in community coalitions and faculty teams; (6) developing or adapting extension education materials; and (7) publishing in trade magazines.

Evidence of effective outreach extension activities programs may include, but are not limited to, (1) result when needs assessment leads to well-planned, carefully implemented, and well-documented efforts. Documentation of the process by which needs were identified and what steps were taken to deliver carefully planned and implemented programs; (2) numbers of individuals and types of audiences affected; (3) evaluation by participants in extension outreach activities; (4) other measures of significance to the discipline/profession, state, nation, region and/or world; (5) quantity and quality of outreach extension publications and other mass-media outlets; (6) numbers and types of audiences impacted; (6a) evaluation of the program’s effects on participants and stakeholders; and (6b) extension awards, particularly those involving peer evaluation, (6c) letters of commendation from individuals within organizations to whom service was provided; (9) service in a leadership role of a professional or scientific organization as an officer or other significant position; and (8) other evidence of professional service oriented projects/outputs.

Extramural Service: Service is an essential component of the University of Idaho mission and extramural service is the responsibility of faculty members in all units. Service by members of the faculty to the university, state, nation, and world in their special capacities as scholars should be a part of both the job description and annual performance review.

Extramural service can include clinical service, routine support, and application of specialized skills or interpretations, and expert consultancies. The beneficiaries of these forms of service can be citizens, clients, collaborators, private and public organizations and their representatives, and government.
Extramural service also includes participation in professional and scientific organizations, both as an elected office holder and/or a member, serving as a reviewer or editor for scientific or trade journals, serving as a paid consultant to individuals, businesses, agencies, and non-governmental organizations, representing the University college or the discipline on governmental, non-governmental or private sector bodies; and/or building collaborative programs locally, regionally, statewide, nationally or internationally. [add. 7-06]

Effective performance in extramural service may be documented by a variety of means. Examples include: (1) numbers of individuals and types of audiences impacted as well as measures of significance to the discipline/profession, state, nation, region and/or world; (2) letters of commendation from individuals from within organizations to whom your service was provided; (3) service in a leadership role of a professional or scientific organization as an officer or other significant position; (4) professional service oriented projects/outputs; and (5) receiving service awards from external organizations, especially those involving peer evaluation. [add. 7-06]

C-4. ORGANIZATIONAL UNIVERSITY SERVICE AND LEADERSHIP: The university seeks to create formal and informal organizational structures, policies, and processes that enable the university community to be effective, while also fostering a climate of participatory decision making and mutual respect.

a. Intramural University Service: Service is an essential component of the University of Idaho mission and is the responsibility of faculty members in all units. Service by members of the faculty to the university in their special capacities as scholars should be a part of both the job-position description and annual performance review. [add. 7-06, rev. 1-08]

Within the university, intramural service includes participation in department/unit, college, and university committees, and any involvement in aspects of university governance and academic citizenship. University, college, and department/unit committee leadership roles are seen as more demanding than those of a committee member or just regularly attending faculty meetings. Because faculty members play an important role in the administration/governance of the university and in the formulation of its policies, recognition should therefore be given to faculty members who participate effectively in faculty and university governance. Intramural service can include clinical service, routine support, and application of specialized skills or interpretations, and expert consultancies. The beneficiaries of these forms of service can be colleagues and co-workers.

Effective performance in intramural University service may be documented by a variety of means. Examples include: (1) letters of support from university clientele to whom your service was provided; (2) serving as a member or chairperson of university, college, or department/unit committees; and (3) receiving University service awards, especially those involving peer evaluation; and (4) the interdisciplinary nature of service. Effective performance in intramural service may be documented by a variety of means. Examples include: (1) numbers of individuals and types of audiences impacted as well as measures of significance to the discipline/profession, state, nation, region and/or world; (2) letters of commendation from individuals from within organizations to whom your service was provided; (3) service in a leadership role of a professional or scientific organization as an officer or other significant position; (4) professional service oriented projects/outputs; and (5) receiving service awards from external organizations, especially those involving peer evaluation. [add. 7-06]

b. Administration:

1. Unit Administration (see FSH 1565 B): Effective administration is essential to the smooth functioning of the University. Administration includes conducting and/or managing any unit, or significant operation within the University. For faculty in academic and extension units, administration is not normally considered in tenure and promotion deliberations. Administration is accounted for insofar as expectations are proportionally adjusted in teaching, scholarship, advising, service, and extension (outreach). Refer to the activities of administrators of schools, divisions, and units. FSH 1420 E describes the responsibilities and the selection and review procedures for unit administrators. Unit administration is not normally considered in tenure and promotion deliberations; it is accounted for insofar as
as expectations are proportionally adjusted in the other sections of the position description. For faculty in nonacademic units (e.g. faculty at large), administration may be considered in tenure and promotion deliberations. Documentation of effective administration may include evaluations by unit faculty and staff, as well as objective measures of unit performance under the incumbent’s leadership. [add. 7-06]

(2) Other: Effective conduct of research university programs requires administrative scholarship and activities that support scholarship, outreach and teaching but are not of themselves scholarly activity. Research program support activities are to be noted in position descriptions and performance reviews. The role of the principal or co-investigator of a research university program or project may include the following administrative duties: (1) budgetary and contract management; (2) compliance with University purchasing and accounting standards; (3) supervision and annual review of support personnel; (4) purchasing and inventory management of goods; (5) graduate student and program personnel recruitment, training in University procedures/policies, and annual review; (6) collaborator coordination and communication; (7) management of proper hazardous waste disposal; (8) laboratory safety management; (9) authorization and management of proper research animal care and use; (10) authorization and management of human subjects in research; (11) funding agency reporting; (12) intellectual property reporting; and (13) compliance with local, state, and federal regulation as well as University research policy. [add. 7-06]

Demonstration of effective research program conduct, administration beyond scholarship attributes, may be documented by a variety of means. Examples include: (1) compliance with applicable rules, standards, policies, and regulations; (2) successful initiation, conduct and closeout of research contracts and grants as evidenced by timely reporting and budgetary management; (3) achievement of the research contract or proposal scope-of-work; organized program operations including personnel and property management and (4) timely communication and validation of research outcomes into the scholarship domain. Documentation of effective research program operation, beyond scholarship, may also include review of annual budget reports and outdoor participation in the research program. Absence of citation for non-compliance with laboratory safety guidance, hazardous material guidance or other research related policy, rule or regulation is regarded as a demonstration of effective research program operation. Documentation of effective administration may include evaluations by faculty and staff, as well as objective measures of performance under the incumbent’s leadership. [add. 7-06]

A-10. All faculty are encouraged when feasible to cross unit boundaries to engage in interdisciplinary, multidisciplinary or transdisciplinary activities and cooperation as they perform their teaching, scholarship, advising, service, and outreach/extension responsibilities. [add. 7-06]

D. UNIVERSITY FACULTY (FSH 1520 Article II):

D-1. INSTRUCTOR:

a. Instructor.Appointment to this rank requires proof of advanced study in the field in which the instructor will teach, the promise of teaching effectiveness, and satisfactory recommendations. Instructors have charge of instruction in assigned classes or laboratory sections under the general supervision of the departmental administrator. When they are engaged in teaching classes with multiple sections, the objectives, content, and teaching methods of the courses will normally be established by senior members of the faculty or by departmental committees. Instructors are expected to assist in the general work of the department and to make suggestions for innovations and improvements.

b. Senior Instructor. Appointment to this rank requires qualifications that correspond to those for the rank of instructor and evidence of outstanding teaching ability. Effective teaching is the primary responsibility of anyone holding this rank and this primary responsibility is weighted accordingly in the annual performance
evaluation, and when a senior instructor is being considered for tenure. Except in very rare instances, this rank is considered terminal (i.e., it does not lead to promotion to the professorial ranks and there is no limitation on the number of reappointments). Prospective appointees to the rank of senior instructor must be fully informed of its terminal nature. No more than 15 percent of the positions in any department or similar unit may be held by senior instructors; however, each such unit may appoint one person to this rank without regard to this limitation.

D-2. FACULTY:

a. Assistant Professor. Appointment to this rank normally requires the doctorate or appropriate terminal degree. In some situations, however, persons in the final stages of completing doctoral dissertations or with outstanding talents or experience may be appointed to this rank. Evidence of potential effective teaching and potential scholarship in teaching and learning, artistic creativity, discovery, and outreach/application/integration/engagement is a prerequisite to appointment to the rank of assistant professor.

Appointees in this rank have charge of instruction in assigned classes or laboratories and independent or shared responsibility in the determination of course objectives, methods of teaching, and the subject matter to be covered. Assistant professors are expected to demonstrate an ability for conducting and directing scholarly activities, and in providing intramural and extramural professional service to the university and/or his or her profession. [1565 A-2, A-3, A-4C] [rev. 7-98, 7-00]

b. Associate Professor. Appointment or promotion to this rank normally requires the doctorate or appropriate terminal degree. In some situations, however, persons with outstanding talents or experience may be appointed or promoted to this rank. Associate professors must have demonstrated maturity and conclusive evidence of having fulfilled the requirements and expectations of the position description. An appointee to this rank will have demonstrated effective teaching or the potential for effective teaching, the ability to conduct and direct scholarly activities in his or her special field, and provide service to the university and/or his or her profession. Evidence of this ability includes quality publications or manuscripts of publishable merit; and/or unusually productive scholarship in teaching and learning; and/or significant artistic creativity; and/or major contributions to the scholarship of outreach/application/integration/engagement. Associate professors generally have the same responsibilities as those of assistant professors, except that they are expected to play more significant roles in initiating, conducting, and directing scholarly activities, and in providing intramural and extramural professional service to the university and/or his or her profession. [1565 A-2, A-3, A-4C] [rev. 7-98, rev. and renumbered 7-00]

c. Professor. Appointment or promotion to this rank normally requires the doctorate or appropriate terminal degree. A professor should have intellectual and academic maturity, demonstrated effective teaching or the potential for effective teaching and the ability to organize, carry out, and direct significant scholarship in his or her major field. A professor will have made major scholarly contributions to his or her field as evidenced by several quality publications and/or highly productive scholarship in one or more of the areas of teaching and learning, discovery, artistic creativity, and outreach/application/integration/engagement. Professors have charge of courses and supervise research, and are expected to play a major role of leadership in the development of academic policy, and in providing intramural and extramural professional through service to the university and/or his or her profession. [1565 C-A-2, A-3, A-4] [rev. 7-98, rev. and renumbered 7-00]

D-3. RESEARCH FACULTY:

a. Assistant, associate and professor. Appointment to these ranks require qualifications, except for teaching effectiveness, that correspond to their respective ranks as for faculty in D-2 above.

D-4. EXTENSION FACULTY:

a. Extension Faculty with Rank of Instructor. Appointment to this rank requires: sound educational background and experience for the specific position; satisfactory standard of scholarship; personal qualities that will contribute to success in an extension role; evidence of a potential for leadership, informal instruction,
b. Extension Faculty with Rank of Assistant Professor. Appointment to this rank requires a master’s degree along with the qualifications of extension faculty with rank of instructor and: demonstrated leadership ability in motivating people to analyze and solve their own problems and those of their communities; evidence of competence to plan and conduct an extension program; a record of effectiveness as an informal instructor and educational leader; proven ability in the field of responsibility; evidence of continued professional growth through study and participation in workshops or graduate training programs; acceptance of responsibility and participation in regional or national training conferences; membership in appropriate professional organizations, and scholarship in extension teaching or practical application of research; demonstrated ability to work in harmony with colleagues in the best interests of UI and of the people it serves. [rev. 7-98]

c. Extension Faculty with Rank of Associate Professor. In addition to the qualifications required of extension faculty with rank of assistant professor, appointment or promotion to this rank requires: achievement of a higher degree of influence and leadership in the field; continued professional improvement demonstrated by keeping up to date in subject matter, extension teaching methods, and organization procedures; progress toward an advanced degree if required in the position description; demonstrated further successful leadership in advancing extension educational programs; evidence of a high degree of insight into county and state problems of citizens and communities in which they live, and the contribution that education programs can make to their solution; an acceptance of greater responsibilities; a record of extension teaching or practical application of research resulting in publication or comparable productivity; a reputation among colleagues for stability, integrity, and capacity for further significant intellectual and professional achievement. These activities may occur in a domestic or international context. [rev. 7-98]

d. Extension Faculty with Rank of Professor. In addition to the qualifications required of extension faculty with rank of associate professor, appointment or promotion to this rank requires: regional or national recognition in the special professional field or area of responsibility; a record of successful organization and direction of county, state, or national programs; an outstanding record of creative extension teaching or practical application of research resulting in significant publications or comparable scholarship; active membership and effective participation in professional committee assignments and other professional organization activities; demonstrated outstanding competence in the field of responsibility; achievement of full maturity as an effective informal teacher, wise counselor, leader of extension educational programs, and representative of the university. These activities may occur in a domestic or international context. [rev. 7-98]

D-5. LIBRARIAN:

a. Librarian with Rank of Instructor. Appointment to this rank requires an advanced degree in library science from a library school accredited by the American Library Association and: (a) evidence of potential for successful overall performance and for development as an academic librarian; (b) when required for specific positions (e.g., cataloger, assistant in a subject library), knowledge of one or more subject areas or pertinent successful experience in library work.

b. Librarian with Rank of Assistant Professor. Appointment to this rank requires the qualifications for librarian with rank of instructor and: (a) demonstrated ability, competence, and effectiveness in performing assigned supervisory-administrative, specialized public service, or technical service responsibilities; (b) demonstrated ability to establish and maintain harmonious working relationships with library colleagues and other members of the university community; (c) evidence of professional growth through study; creative activity; participation in workshops, conferences, seminars, etc.; participation in appropriate professional organizations; awareness of current developments in the profession and ability to apply them effectively in the area of responsibility; (d) service to the library, university, or community through committee work or equivalent activities.

c. Librarian with Rank of Associate Professor. Appointment or promotion to this rank requires the qualifications applicable to the lower ranks of librarians and: (a) acceptance of greater responsibilities, and
conclusive evidence of success in the performance of them, e.g., bibliographical research performed in support of research activities of others; development of research collections; the preparation of internal administrative studies and reports; interpreting, and facilitating effective use of, the collections; effectively applying bibliographic techniques for organizing library collections; effective supervision of an administrative unit; (b) evidence of further professional growth, as demonstrated by keeping up to date in subject matter, methods, and procedures and by practical application of research resulting in significant improvement of library operations or in publication; effective participation in the work of appropriate professional organizations; and/or formal study, either in library science or in pertinent subject areas; (c) evaluation by colleagues as a person of demonstrated maturity, stability, and integrity, with the capacity for further significant intellectual and professional achievement. These activities may occur in a domestic or international context.

**d. Librarian with Rank of Professor.** Appointment or promotion to this rank requires the qualifications applicable to the lower ranks of librarians and: (a) demonstrated outstanding competence in the area of responsibility; (b) achievement of an outstanding record of creative librarianship, of effective administration, or of practical application of research resulting in significant publications or comparable productivity; (c) an additional degree in library science or in a pertinent subject area or equivalent achievement; (d) regional or national recognition for contributions to the profession based on publications or active and effective participation in the activities of professional organizations; (e) evaluation by colleagues as an effective librarian who will continue to recognize that optimum productivity is a reasonable personal goal. These activities may occur in a domestic or international context.

### D-6. PSYCHOLOGIST OR LICENSED PSYCHOLOGIST:

**a. Psychologist with Rank of Instructor.** Appointment to this rank requires: an advanced degree in counseling, counseling psychology, clinical psychology, or closely related field earned in a professional program accredited by the appropriate accrediting association; evidence of effective skills in counseling or therapy; and evidence of pursuit of a terminal degree.

**b. Psychologist or Licensed Psychologist with Rank of Assistant Professor.** Appointment to this rank requires the qualifications for psychologist with rank of instructor and: a doctoral or equivalent terminal degree; evidence of effective skills in counseling or therapy; awareness of current developments in the profession; and demonstrated potential for participation in appropriate professional organizations, service to the Counseling and Testing Center, the university, and the community through teaching, committee membership, or equivalent activities, and the development and execution of research projects or the development and execution of outreach services designed to benefit UI students.

**c. Licensed Psychologist with Rank of Associate Professor.** Appointment or promotion to this rank requires the qualifications applicable to the lower ranks of psychologists and: possession of a license as a psychologist in the state of Idaho; evidence of continued development of skills in counseling or therapy, as demonstrated by attendance at training workshops, personal study that leads to the presentation of workshops, classes, or seminars, or private study that leads to in-service training of personnel of the Counseling and Testing Center; evidence of continued professional development through service in professional organizations; evidence of effective teaching or training; completion of research that has resulted in quality publications or manuscripts of publishable merit, or the design and implementation of a continuing program in the Counseling and Testing Center that is of benefit to UI students and represents professional achievement of publishable merit; and continued service to the university and community through committee work or participation in community organizations. These activities may occur in a domestic or international context.

**d. Licensed Psychologist with Rank of Professor.** Appointment or promotion to this rank requires the qualifications applicable to the lower ranks of psychologists and: demonstration of outstanding competence in counseling or therapy; establishment of an outstanding record in research and publication or in development of continuing programs that contribute to the betterment of university students; continued professional improvement through private study, directed study, or attendance at workshops, conventions, etc.; regional or national recognition for contributions to the profession through publication, presentation of workshops, or...
active and effective participation in the activities of professional organizations; and recognition by colleagues as an effective psychologist who realizes that optimum productivity is a reasonable personal goal. These activities may occur in a domestic or international context.

**D-7. OFFICER-EDUCATION:** Appointment of persons to the faculties of the officer education programs was established for the purpose of ensuring the academic soundness of the programs. The dual role of these faculty members as military officers and academic instructors is recognized. The university expects the nominees to have demonstrated academic and intellectual capabilities and exemplary professional achievement. Specifically, UI expects:

- **a. Academic Preparation.** It is desirable for officer education faculty members to have at least a master’s degree. In his or her most recent education, the officer should have a superior academic record as demonstrated by such things as a high grade-point average in graduate school, being in the upper half of the class in graduate school, or superior graduate-level ability as attested in letters of recommendation from graduate-school professors.

- **b. Specialized Preparation.** The officer must have significant education, experience, or formal preparation in the subject areas in which he or she will teach.

- **c. Military Background and Preparation.** A junior officer is expected to have had significant professional performance and experience. It is also desirable that the officer have some formal military education beyond commissioning. A senior officer should have broad experience with excellent performance. He or she is expected to have attended a junior or senior military college and to have made a distinguished record there.

- **d. Teaching.** It is desirable for officers to have had some teaching experience. It is recognized that this is not always possible for junior officers. For such an officer, there should be some evidence that he or she will become a satisfactory teacher. Heads of officer education programs are expected to be experienced instructors.

- **e. Nominees who will pursue graduate studies at UI for one year before becoming an instructor will be given preliminary approval. In their last semester of full-time graduate enrollment, the service should submit the usual-required information to the Officer Education Committee for regular, final approval. For preliminary approval, the officer should, in addition to the military requirement, show promise of being successful in graduate studies. This could be demonstrated by (a) a high score on the Graduate Record Examination, if taken, (b) full enrollment status as a graduate student at UI, (c) a high overall grade-point average in college (3.00 or above on a 4-point scale), (d) a high grade-point average in a major area, or (e) a good record in the final year of college and graduate-level ability as attested by letters of recommendation from college professors.

**1. Appointment:**

1. The following information is submitted by the nominee’s service: (1) transcripts from undergraduate and graduate academic institutions; (2) transcripts or appropriate records from military schools and staff colleges; (3) at least three letters of recommendation from appropriate sources, such as former professors, military instructors, and supervisors or commanders. These letters should be concerned with matters such as the officer’s civilian academic performance, military record and leadership ability, and actual or potential performance as a teacher. (Former supervisors or commanders could give their opinion based on the officer’s demonstration of leadership ability and his or her experience as a training officer.); (4) a summary of the officer’s duty assignments and military and teaching positions held; (5) copies of favorable communications from the officer’s file.

2. The following is provided by the program unit concerned: (1) a description of the military schools attended and courses completed by the nominee; (2) a description of the positions held by the nominee; (3) an explanation of the appropriateness of the officer’s experience and training to the courses he or she will teach.

3. Copies of the requested material are distributed by the local unit to the members of the Officer Education Committee for review.
Committee at least 72 hours before the meeting at which the committee will consider the nominee. For appointments commencing in the fall, this information should normally be made available not later than the preceding May 1.

4. In the case of a person nominated to head an officer education program, UI may require a personal interview.

5. A minimum of two weeks, after receipt of all required information, is necessary for consideration of the nominee. UI notifies the nominee’s service of its decision within one month.

E. EMERITI. (FSH 1520 II-3)

E-1. ELIGIBILITY. A member of the university faculty who holds one of the ranks described in 1565 B, C, D, or E and who retires, having met the criteria either for university retirement or for state retirement [3730 C], is designated as “professor emeritus/emerita,” “research professor emeritus/emerita,” or “extension professor emeritus/emerita,” as applicable. A faculty member without such rank has the designation “emeritus” or “emerita,” as applicable, added to the administrative or service title held at the time of retirement. [ed. 7-00, 7-02, 1-08]

E-2. RIGHTS, PRIVILEGES, AND RESPONSIBILITIES. Emeriti are faculty members in every respect, except for the change in salary and in certain fringe benefits, the obligation to perform duties, and the right to vote in faculty meetings. They may hold a part-time position after retirement, but not a full-time one (when it is in UI’s interest, this limitation may be waived by the regents on recommendation of the president). They continue to have access to research, library, and other UI facilities. Emeriti may take an active role in the service and committee functions of their department, college, and the university. UI encourages the voluntary continued participation of emeriti in the activities of the academic community.

E-3. SPECIFIC PROVISIONS FOR EMERITUS PARTICIPATION.

a. Departmental mail boxes continue to be available to emeriti who reside locally.

b. A list of emeriti and their mailing addresses is maintained at each level—department, college, and university in Human Resources). [ed. 7-06, 1-08]

c. The director of human resources is responsible for supplying information about emeriti for the Campus Directory.

d. Emeriti who have campus mail boxes receive the University of Idaho Register and similar publications by campus mail; otherwise, upon individual request, they receive these publications by U.S. mail.

e. Emeriti who have departmental mail boxes receive full distribution of notices; otherwise, special requests may be made to the departmental administrator.

f. Ordinary office materials and supplies are available under the same issuing procedures applicable to other members of the department.

g. Departmental postage may be used for professional mail.

h. Offices for emeriti are provided on a space-available basis.

i. One, free non-transferable gold parking permit each year. [rev. 1-08]

j. Any discounts available to other members of the faculty and staff through various UI agencies are available to emeriti.

k. Emeriti are included in appropriate university, college, and departmental faculty-staff functions.
l. In the appointment of committees, administrators at all levels and the Committee on Committees consider the availability and desire for significant service of emeriti.

m. There are many areas of activity, professional and other, such as service to the community and special groups within the community and university, in which emeriti may have the time and the inclination to make continuing contributions (e.g., guest lectures, research design, and consultation). In connection with such services, emeriti are not excluded from the travel budget, though they may generally have a lower priority.

n. E-mail accounts are available to emeriti without charge within the local dialing area. [add. 7-99, renumbered 1-08]

E-4. LISTING OF EMERITI IN THE COMMENCEMENT PROGRAM. Names of faculty members who retire after meeting the eligibility requirements stated in A are listed in the program of the commencement exercises held during the fiscal year in which their UI duties end; also, those whose service obligations are to end on or before August 31 following a given commencement will be listed in the program for that commencement.

E-5. MAINTENANCE OF TIES WITH EMERITI. The Faculty Council has urged UI units periodically to review their contacts with emeriti and to take steps to ensure that the provisions of this section—particularly b and c, above—are being carried out; moreover, the council has urged all members of the UI community to seek additional ways of maintaining ties with emeriti and to provide opportunities and the means for them to continue to be a part of, and of service to, the university. [ed. 1-08]

F. ASSOCIATED FACULTY: Associated faculty members (see FSH 1520 II-3) have access to the library and other UI facilities. Reimbursement for travel or for services to UI is at the unit’s discretion. They are not eligible for sabbatical leave.

F-1. ADJUNCT FACULTY: [renumbered 7-98, 1-08]

   a. General. The adjunct faculty consists of professional personnel who serve academic departments in a supporting capacity. Appointment to adjunct-faculty status constitutes a recognition of the appointee’s scholarly contributions and professional accomplishments, confers responsibilities and privileges as stated in subsection e below, and authorizes assignment of service functions as described in subsection e-2 below. It is also a means of encouraging greater cooperation between and among academic departments and other units.

   An adjunct faculty member holds a non-tenure-track faculty status in an appropriate academic discipline. [ed. 7-00]

   b. Employment Status. An adjunct faculty member may, by virtue of his or her employment, have either one of the following relationships with UI: (1) that of a UI employee, normally an exempt employee, who is [a] a member of the faculty or staff of a unit of the university other than the one in which he or she has adjunct-faculty status, or [b] a member of the professional support staff of the same unit of the university in which he or she has adjunct-faculty status; (2) that of an employee of a governmental or private agency who is assigned by that agency to a UI unit or to one of the agency’s units or programs that is officially associated with the university.

   c. Distinction Between Affiliate and Adjunct Faculties. Members of the adjunct faculty have a more direct relationship with UI than do members of the affiliate faculty [see 1565 F-24]. Members of the affiliate faculty are not UI employees. An affiliate faculty member’s primary employment is with a unit or program that is not officially associated with UI. Thus, the relationship of a member of this faculty category to UI is essentially that of a collaborator with a UI unit, program, or faculty member. An adjunct faculty member, in contrast, has a primary employment responsibility in a UI unit or in a non-UI unit that is officially associated with UI. In addition, he or she has a secondary relationship to another unit in a supporting role, or has a secondary relationship to the academic program in the same unit in which he or she has a primary employment relationship.
responsibility. These latter relationships are the kind that are recognized by the adjunct faculty membership.

**d. Academic Rank.** An adjunct faculty member holds one of the following non-tenure-track ranks [see 3520 C] in an appropriate academic discipline: adjunct instructor, adjunct assistant professor, adjunct associate professor, or adjunct professor.

**ed. Responsibilities, Privileges, and Rights.** The guarantees afforded by the principle of academic freedom [see 3160] are extended to members of the adjunct faculty. They have substantially the same responsibilities and privileges as do members of the university faculty; however, their right to vote in meetings of the university faculty and of constituent faculties is limited in accordance with the provisions of 1520 II-3-B. Those who, in addition to their adjunct-faculty status, have status as members of the university faculty [e.g., psychologists in the Counseling and Testing Center and regular faculty members in other academic departments] have, of course, full rights of participation in meetings of the university faculty and of the constituent faculties to which they belong.)

Adjunct faculty members perform administrative, analytical, and research functions that complement UI’s mission in teaching, research, and service.

1. Adjunct faculty members, as such, do not normally have teaching as a primary or major responsibility; however, with the approval of academic departments, they may teach classes, advise students on their academic or professional programs, participate in research projects, serve on graduate students’ supervisory committees (with approval by the vice president for research and graduate studies), or act as expert advisers to faculty members or groups.

2. The nature and extent of the services to be rendered are determined jointly by the adjunct faculty member, his or her immediate supervisor, and the departmental administrator(s) concerned.

3. Adjunct faculty do qualify for the faculty-staff educational privilege [see 3740]

**ef. Qualifications.** Members of the Assignment to an adjunct faculty position is based on demonstrating possess academic degrees or knowledge and experience, academic degrees, comparable to what is expected of members of the university faculty. Initial assignment of and promotion in adjunct-faculty rank are based on educational background, scholarly contributions, to a branch of learning, and or other professional accomplishments comparable to what is expected of faculty within that unit [see 1565 AD] [ed. 7-00].

**g. Appointment.**

1. Appointments to the adjunct faculty may be made at any time. They are reviewed by the dean of the college before publication of each issue of the General Catalog. No appointment should be continued unless the adjunct faculty member remains in UI employment or continues in his or her assignment to an entity that is officially associated with the university.

2. A recommendation for appointment to the adjunct faculty normally originates in the appropriate academic department and requires the concurrence of the nominee’s immediate supervisor and the faculty of the appointing department. The appointment must be approved by the dean of the college, the president, and the regents.

3. An appointment, termination, or other change in adjunct-faculty status is made official by means of a “Personnel Action” form.

**h. Promotion.** Consideration for promotion in adjunct-faculty rank is initiated by the departmental administrator in consultation with the adjunct faculty member’s immediate supervisor. The procedures and schedule of consideration for promotion are as described in 3560.
I. Benefits. As members of an associated faculty, adjunct faculty members have access to the library and other UI facilities. They also qualify for the faculty-staff educational privilege [see 3740]. They are not eligible for sabbatical leave.

F-2. AFFILIATE FACULTY:

a. General. The affiliate faculty includes highly qualified persons who are not employed by UI but are closely associated with its programs. [For the distinction between the affiliate and the adjunct faculty categories, see 1565 F-1-c.] [ed. 7-00, 1-08]

b. Academic Rank. A member of the affiliate faculty holds one of the following non-tenure-track ranks [see 3520-D] in an appropriate academic discipline: affiliate instructor, affiliate assistant professor, affiliate associate professor, or affiliate professor.

c. Responsibilities. Members of the affiliate faculty have the same academic freedom and responsibility as do members of the university faculty, except that they do not vote in meetings of the university faculty or of constituent faculties. Affiliate faculty members may be assigned to advise students on their academic or professional programs at any level; to work in cooperative research projects; to serve on committees, including graduate students’ supervisory committees [with approval by the College of Graduate Studies]; to act as expert advisers to faculty members or groups; and to teach courses in their branch of learning.

cd. Qualifications. Affiliate faculty members must be highly qualified in their fields of specialization and should have exhibited positive interest in UI programs in the field of their appointment. Their qualifications should ordinarily be equivalent to those required of regular members of the faculty in the area and at the level of the affiliate faculty member’s responsibility.

d. Affiliate faculty do not qualify for the faculty-staff educational privilege. (see 3740)

e. Appointment

1. Appointments to the affiliate faculty may be made at any time. b. Appointments are for an indefinite period, but are to be reviewed by the dean of the college before publication of each issue of the General Catalog. No appointments should be continued unless the affiliate faculty member is actively engaged in the responsibilities for which he or she was appointed.

2. Recommendations for appointment to the affiliate faculty are normally developed at the departmental level and have the concurrence of the departmental faculty. For interdisciplinary degree programs, individuals may also be affiliated with the degree programs upon the approval of the program faculty and of the program director. Appointments must be approved by the dean of the college, the provost, the president, and the regents.

3. Before formal appointment procedures are begun, the prospective affiliate faculty member must agree to serve under the provisions herein described. When necessary, the consent of the nominee’s employer, if any, will be requested and recorded.

4. Appointment information is recorded on the regular “Personnel Action” form.

5. The appointment of affiliate faculty members to graduate students’ supervisory committees requires approval by the dean of the College of Graduate Studies.

e. Status and Benefits. Affiliate faculty members are generally appointed without remuneration. As members of an associated faculty, affiliate faculty members have access to the library and other UI facilities. Reimbursement for
G. TEMPORARY FACULTY: Temporary faculty have access to the library and other UI facilities. Reimbursement for travel or for services to UI is at the unit’s discretion. They are not eligible for sabbatical leave.

G-1. LECTURER. A teaching title that may be used at any level, i.e., it carries no specific connotation of rank among the professorial titles. This title is conferred on one who has special capabilities or a special instructional role. Lecturers are neither tenurable nor expected to progress through the professorial ranks. A lecturer qualifies for faculty status with vote during any semester in which he or she (a) is on an appointment greater than half-time and (b) has been on such appointment for at least four semesters. [rev. 7-01]

G-2. VISITING FACULTY. A designation that, when used with a professorial title, customarily indicates that the appointee holds a regular teaching or research position at another institution. A visiting appointee who does not hold a professorial rank elsewhere may be designated as a lecturer. Appointees with visiting academic ranks (e.g., visiting associate professor, visiting professor) are considered temporary members of the university faculty. Those on full-time appointment have the privilege of voting in meetings of the university faculty and of the appropriate constituent faculties.

G-3. ACTING. Persons who are judged competent to perform particular duties may be appointed for temporary service as acting members of the faculty. An acting appointment may also be used to establish a probationary period for an initial appointment of a person who, while being considered for a regular position on the faculty, is completing the required credentials for a permanent appointment. Persons on acting status are not voting members of the university faculty or of constituent faculties.

G-4. ASSOCIATE. A title for a nonstudent with limited credentials who is assigned to a specialized teaching, research, or outreach position. Associates are exempt staff and are not members of the university faculty or of constituent faculties.

G-5. CLINICAL FACULTY:

a. General. The clinical faculty may be appointed for the purpose of performing practicum, laboratory, or classroom teaching in which his/her primary functions are in clinical skills instruction. Clinical faculty positions are appropriate for professional disciplines having strong applied and/or clinical elements and which will serve university units or academic departments in a supporting capacity. Appointment to clinical-faculty status constitutes a recognition of the appointee's scholarly contributions and professional accomplishments, and confers responsibilities and privileges as stated in b below.

b. Responsibilities, Privileges, and Rights. A clinical faculty member has a primary employment responsibility in a UI unit or in a non-UI unit that is officially associated with UI. The relationship of a clinical faculty member to UI is essentially that of a collaborator with a UI unit, program, or faculty member. The guarantees afforded by the principle of academic freedom [see 3160] are extended to members of the clinical faculty. They have substantially the same responsibilities and privileges as do members of the university faculty; however, their right to vote in meetings of the university faculty and of constituent faculties is limited in accordance with the provisions of 1520 II-3-B. They also qualify for the faculty-staff educational privilege [see 3740]. They are not eligible for sabbatical leave.

Clinical faculty members perform administrative, analytical, and research functions that complement UI’s mission in teaching, research, and service.

1. Clinical faculty members, as such, do not necessarily have teaching as a primary or major responsibility; however, with the approval of academic departments, they may teach classes, advise students on their academic or professional programs, participate in research projects, serve on graduate
students’ supervisory committees (with approval by the vice president for research and graduate studies), or act as expert advisers to faculty members or groups.

2. The nature and extent of the services to be rendered are determined jointly by the clinical faculty member, his or her immediate supervisor, and the unit administrator(s) concerned.

3. Clinical faculty do qualify for the faculty-staff educational privilege [see 3740]

e. Qualifications. Assignment to a clinical faculty position is based on demonstrating knowledge and experience, academic degrees, scholarly contributions, or other professional accomplishments comparable to what is expected of faculty within that unit.

H. NON-FACULTY. Those within this category are not members of the faculty.

H-1. POSTDOCTORAL FELLOW. Postdoctoral fellows are persons who hold the doctoral degree or its equivalent at the time of their appointment and are continuing their career preparation by engaging in research or scholarly activity. Postdoctoral fellows are special exempt employees in the category of “temporary or special” (FSH 3080 D-2 a) employees recognized by the regents. [See also 3710 B-1.b.] Postdoctoral fellows are not members of the faculty.

H-2. GRADUATE STUDENT APPOINTEES: [See also 3080 D-2-a.]

a. Teaching Assistant. Teaching assistants conduct classroom or laboratory instruction under the supervision of a full-time member of the faculty. Consult the Graduate Bulletin for further information. Teaching assistants are not members of the faculty.

b. Research Assistant. Research assistants provide research service, grade papers, and perform other nonteaching duties. Consult the Graduate Bulletin for further information. Research assistants are not members of the faculty.

c. Graduate Assistant. Graduate assistants perform paper-grading and other nonteaching duties. Consult the Graduate Bulletin for further information. Graduate assistants are not members of the faculty.

d. Research Fellow. This title is appropriate for registered graduate students engaged in research or scholarly activities sponsored by funds designated for fellowships. Research fellows are not members of the faculty.

I. QUALIFICATIONS OF NONFACULTY MEMBERS FOR TEACHING UI COURSES. Persons who are not members of the university faculty but are selected to teach UI courses offered for university-level credit (including continuing-education courses and those offered by correspondence study) are required to have scholarly and professional qualifications equivalent to those required of faculty members.

Comment [at15]: This entire section was believed to be added to address professionals who have special certification or expertise in their field, e.g., Architects, Real Estate Professionals, etc. and seems to be addressed in any of the ranks under temporary faculty. The reason this was put in was so these individuals could teach at UI and is predated to the 1996 version of the FSH.
