IT Committee Meeting
Meeting Notes - 9/5/2018

Attending: Bruce Godfrey (Chair), Dwaine Hubbard, Bob Smith, Brian Cox, Cassidy Hall, Barbara Kirchmeier, Ron Robberecht, Jerilyn Prescott, Alex Vakansi

- **Welcome & introductions**

- **Volunteer for meeting minutes**

  There were no volunteers; Bruce will be the recorder of meeting minutes for the year

- **Introduction of meeting guest**

  Brian Cox introduced Technology Partnerships Manager, Jerilyn Prescott, so that she could share a little of her background with the group. She has been with the UI for just two weeks. She provided information about her career and seeks to become a liaison to various areas find solutions that move university forward.

- **Open Forum - ideas for actionable goal(s) for this year**

  Discussion ensued and three ideas emerged:

  **Idea 1:** Streamline process for online learning & professional development
  Too difficult to register. Too spread out among teams, groups, units. Take a look at Oregon State, Arizona State, and others.

  **Idea 2:** Cybercore Integration Center and the Collaborative Computing Center (C3)
  Supercomputing will be available to university to use. Is UI prepared to take advantage for what we signed up to support and do? Possibly invite someone from INL to talk to group to provide more insight.

  **Idea 3:** Software support services for students and faculty
  Blackboard – where to get help; VandalStar; Banner, others

- **Decision on meeting format/time for rest of the year**

  Schedule meetings each month (or as needed) rather than trying to set a specific day/time for the entire year. Bruce will send out a doodle poll for the next meeting.
