Finding and Updating Your Audio Drivers
Windows XP

Click the “Start” button in the lower left hand part of the screen

Click “control Panel”

Please click on “Switch to Classic View”
Click on “System”

Click “Hardware”
Click “Properties”

Click the “Driver” Tab
Click the “Update Driver” button.

Select the "Yes" box and then click the "Next" button.
Select “Install the software automatically” and then click the “Next” button.

This may take a few minutes while your computer searches.

If you receive the message in the image to the right, you should be up to date on your drivers.
