ULSF is the Secretariat for signatories of the Talloires (pronounced Tal-Whai) Declaration.

What is the Talloires Declaration?

Composed in 1990 at an international conference in Talloires, France, this is the first official statement made by university administrators of a commitment to environmental sustainability in higher education. The Talloires Declaration (TD) is a ten-point action plan for incorporating sustainability and environmental literacy in teaching, research, operations and outreach at colleges and universities. It has been signed by over 300 university presidents and chancellors in over 40 countries.

*"I shall be telling this with a sigh
Somewhere ages and ages hence
Two roads diverged in a wood
And I took the one less traveled by
And that has made all the difference."*

Robert Frost

"I came to a fork in the road and I took it."

Yogi Berra
