Natural Resources

1. Change the following course [Effective: Summer 2015]

NR 407 Natural Resource Ambassador Practicum (1-2 cr, max 12)
Student ambassadors are selected through an application and interview process to represent CNR to future students at recruiting activities and functions. Students will learn skills in leadership, communication, networking, public speaking, and time management. Students will be responsible for visiting high schools, attending college and career fairs, recruiting events on campus. 
Prereq: Permission

Rationale: The course was set up incorrectly; students recruited to be CNR Ambassadors currently receive credit only one semester for their training and work as an ambassador. That defeats the purpose of recruiting a stable group of students who, as they continue to represent the college for several semesters, can also serve as mentors to those students newly selected to represent the college. A variable credit course recognizes the need for flexibility as students and the instructor determine each semester’s time and travel commitments, and the maximum 12 credit limitation recognizes that good ambassadors should be allowed to represent the college – and receive credit for doing so - for up to 6 semesters.
