**DRAFT TEXT**

The University of Idaho is reducing the number of certificates, majors, and some degrees at both the undergraduate and graduate level to streamline offerings and better assess programs. These transitions are in alignment with our mission and responsibilities and will allow us to better meet the needs of students while also ensuring that our resources are used in the most efficient ways possible. We are anticipating minimal cost savings for each change, less than $250k. Any available resources (including human) as a result of these changes will be reallocated to areas of strength and investment. There will be no negative impact to students, they will be allowed to finish their major or change to the major as it is redesigned. In most instances, there have not been students enrolled in these programs.
