1. Add the following course:

**MedS 580 Consolidation and Transition (12 cr)**
Reinforces content in the UWSOM foundations phase. Learning experiences will address key content areas which need further review identified throughout terms 1 and 2, with specific sessions developed as indicated; faculty/staff and peer educators will provide sessions for this basic science review as well as preparation for clerkships. Credit/no-credit only. Offered Spring Pass/ Fail only. **Prereq:** Must be admitted to U of Washington School of Medicine

**Available via distance:** No  
**Geographical Area Availability:** Moscow  
**Rationale:** The WWAMI Medical Education Program Curriculum is managed and dictated by the University of Washington school of Medicine. A new course has been added to the recently adopted LCME recommended curriculum which was created in Fall 2015. They have revised a course that was originally only taught in Seattle.

The materials are created by UW faculty and offered on site to the WWAMI Universities via taped lecture, written reading materials and onsite faculty mentoring. Our current WWAMI Director and Program mentors can manage the additional course oversight.
