Software for 2D and 3D CAD. Includes access to AutoCAD Architecture, Electrical, Mechanical, Map3D, MEP, Plant 3D and AutoCAD Raster Design

Software for 2D and 3D CAD

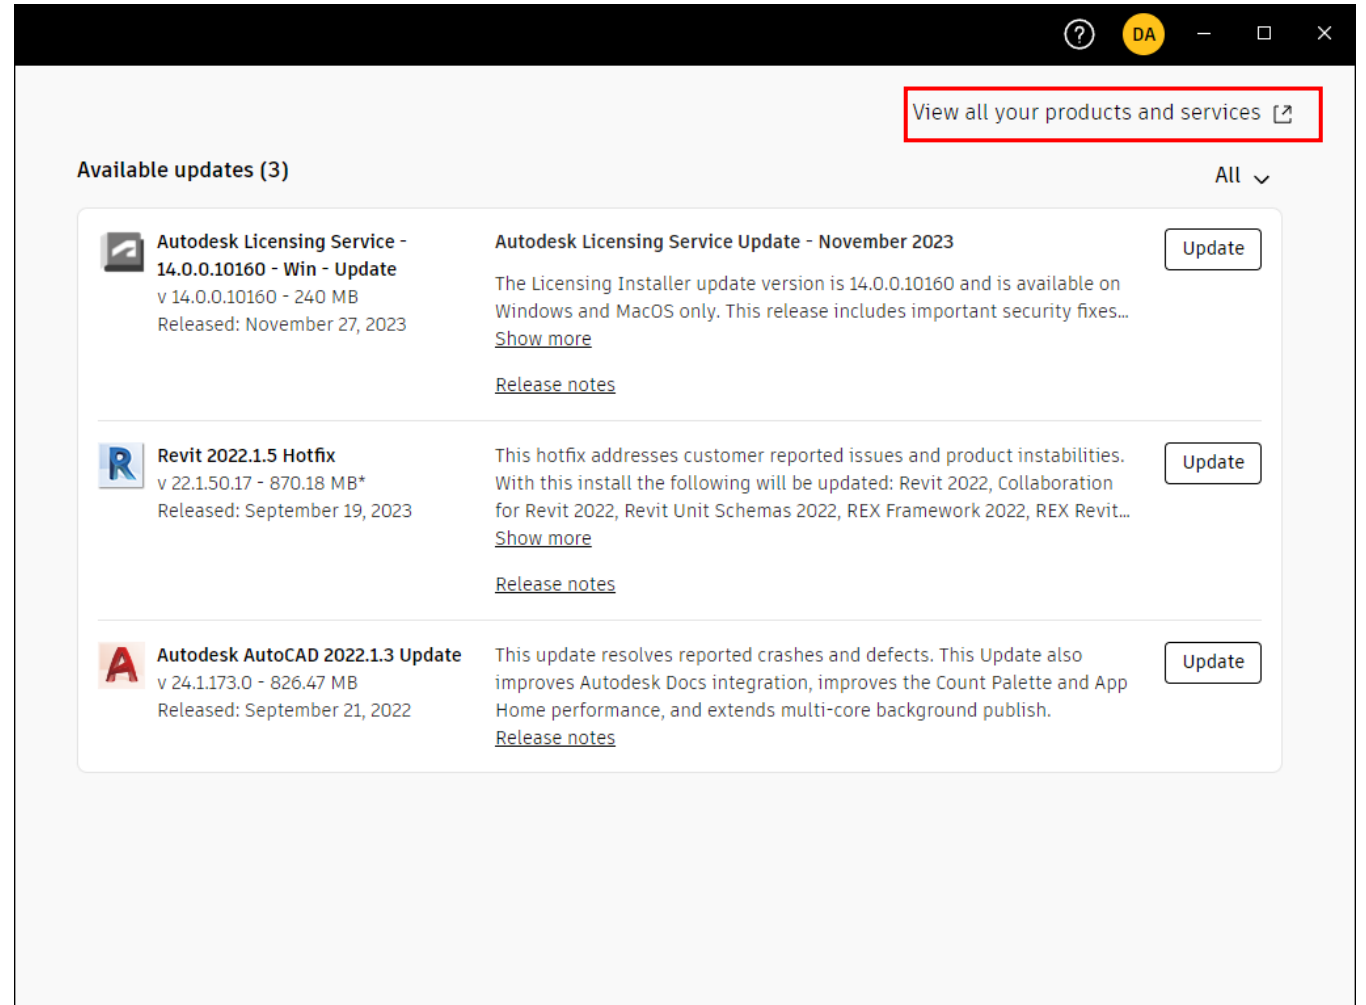

Draft, annotate, and add field data to your drawings online via your web browser or mobile device. Access and edit DWG files, and quickly collaborate with AutoCAD users on designs.

Professional-grade product design and engineering tools for 3D mechanical design, simulation, visualization and documentation

Install Lighting Plug-in

- Launch program – AutoDesk Access
- Click ‘View all your products and services’

The screenshot displays the Autodesk update management window. At the top right, there is a search bar containing the text "View all your products and services" with a magnifying glass icon. Below this, the section "Available updates (3)" is shown with a dropdown menu set to "All". Three update entries are listed:

Product	Version	Size	Release Date	Description	Action
Autodesk Licensing Service	14.0.0.10160 - Win - Update	240 MB	November 27, 2023	Autodesk Licensing Service Update - November 2023. The Licensing Installer update version is 14.0.0.10160 and is available on Windows and MacOS only. This release includes important security fixes...	Update
Revit 2022.1.5 Hotfix	v 22.1.50.17	870.18 MB*	September 19, 2023	This hotfix addresses customer reported issues and product instabilities. With this install the following will be updated: Revit 2022, Collaboration for Revit 2022, Revit Unit Schemas 2022, REX Framework 2022, REX Revit...	Update
Autodesk AutoCAD 2022.1.3 Update	v 24.1.173.0	826.47 MB	September 21, 2022	This update resolves reported crashes and defects. This Update also improves Autodesk Docs integration, improves the Count Palette and App Home performance, and extends multi-core background publish.	Update

Install Lighting Plug-in

- Under Product and Services – Click – ‘Custom Install’
- Then – Click – ‘+ Create Package’

The screenshot shows the Autodesk software interface. The top navigation bar includes the Autodesk logo, a search bar, and notification icons. The left sidebar contains the 'Account' section with a search bar and a navigation menu. The main content area is titled 'Custom Install' and features a '+ Create package' button in the top right corner, which is highlighted with a red box. Below the button are tabs for 'My Library' and 'Team Library', a search bar, and a table of installed packages.

Install Lighting Plug-in

- Scroll down and select Revit
- In the next pane on the right select specific version

The image shows two panels from the Autodesk software installation interface. The left panel, titled "New package", is at step 1 "Add products". It features a "License Type" dropdown menu set to "Autodesk ID". A list of products is shown with checkboxes: AutoCAD Map 3D, AutoCAD Mechanical, AutoCAD MEP, AutoCAD Plant 3D, AutoCAD Raster Design, Revit (checked and highlighted with a red box), and Vault Basic - Client. A "Next" button is at the bottom right. The right panel is for the "Revit" package, with a language dropdown set to "English". Under "Version to install:", the "Latest version" (Revit 2024.2 Update) is selected, but the "Specific version..." option is highlighted with a red box and includes a "Select a version" link. Below this, it states "License managed by Autodesk ID. Users must sign in to access this product." and lists expandable sections for Customizations, Extensions, and Content.

Install Lighting Plug-in

- Select the version you have installed.
 - If you have not patched/updated Revit then don't select the hotfix version.
 - AutoDesk Access will tell you the version you have installed.

Install Lighting Plug-In

- Click – Extensions to drop down the menu list
- Select – Lighting Analysis for Revit
- THEN – Click - Next

The screenshot shows the Autodesk Revit installation interface. On the left, a list of extensions is displayed with checkboxes: AutoCAD Plant 3D, AutoCAD Raster Design, Revit (checked), and Vault Basic - Client. A 'Next' button is highlighted with a red box. Below this list is a '2 Install settings' button. On the right, the 'Extensions' menu is expanded, showing a list of available extensions. The 'Lighting Analysis v1 for Revit 2023' extension is selected and highlighted with a red box. The interface is clean and modern, with a white background and blue accents.
