make

MIDLIFE CRISIS

The days of designing buildings with “crazy shapes, silly profiles, and double curves” **is over!**

LONDON INFORMATION CENTRE

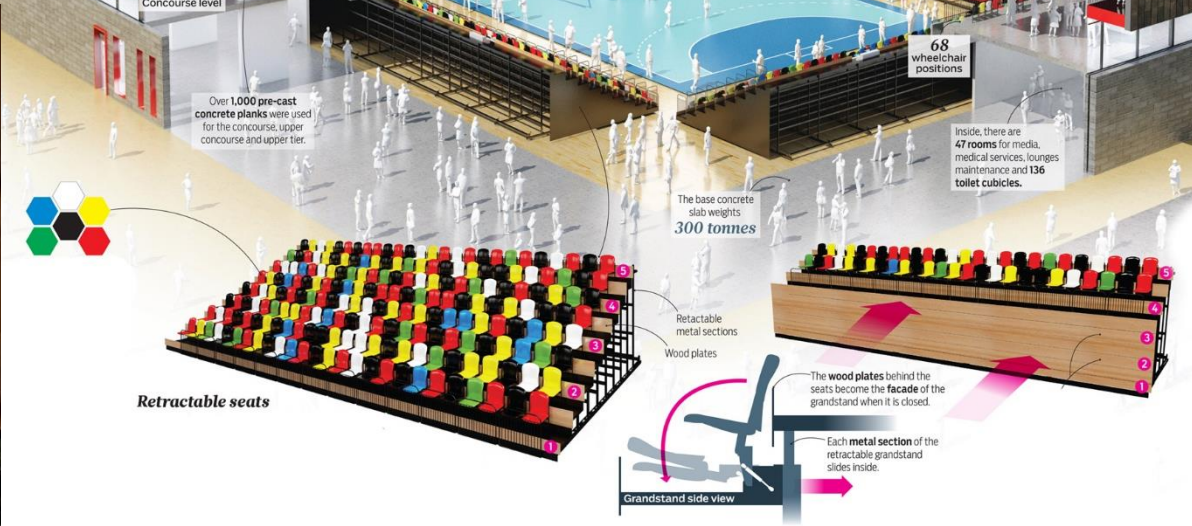

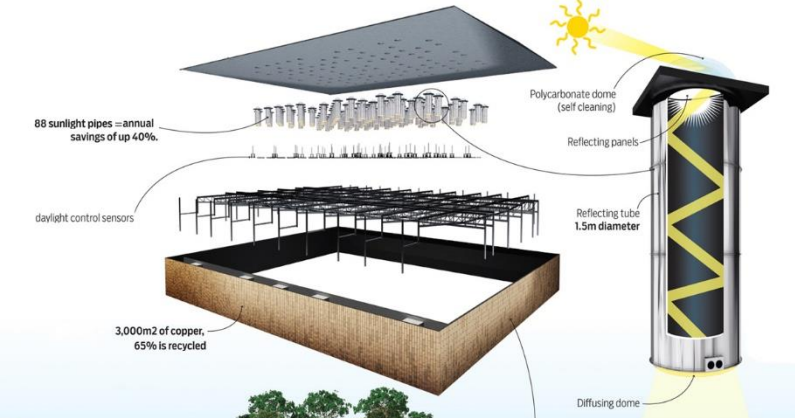

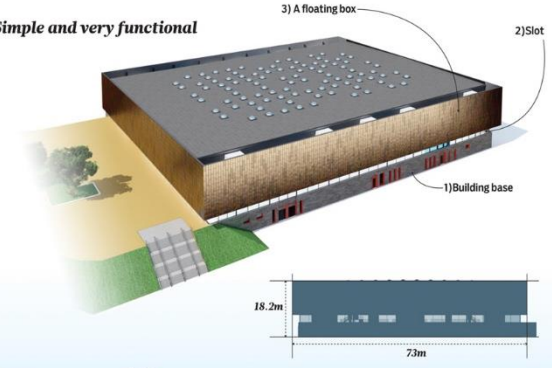

- London Planning Award
- Form was developed by pedestrian flows across site
- Exceeds current Part L targets for CO2 emissions by 20%
- Rainwater collection

COPPER BOX

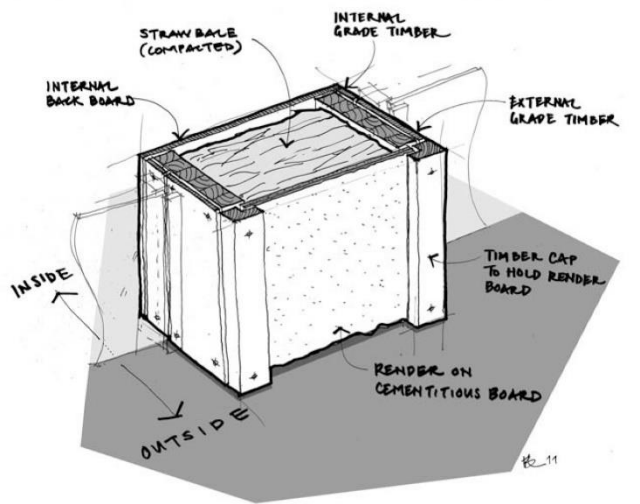

Simple and very functional

GATEWAY BUILDING

KEN SHUTTLEWORTH – Pro Sustainable

Creating buildings that bring delight should be as high a priority for architects as sustainability.

“It’s really important the delight side is not forgotten in this drive of efficiency,” he said.

“We can’t have a load of buildings that are very efficient but nasty.” – Ken Shuttleworth
