Ken Shuttleworth

Born in 1952. Studied at Leicester Polytechnic and received a Diploma in Architecture with Distinction in 1977. He became an Architect in 1978.

Ken joined Foster Associates in 1974 whilst still a student. After an architectural study tour of USA and Canada he returned to Foster Associates in 1977.

Ken was appointed a Director of Foster and Partners in 1984 and worked in Hong Kong on the Hongkong and Shanghai Bank Headquarters where he was responsible for all aspects of the design. In 1986 he returned from Hong Kong and was made a Partner in 1991.

In 1994 he received an Honorary Doctorate from De Montfort University.

Ken is a member of the Editorial Board of Building Magazine.

Ken Shuttleworth

MAKE

Ken Shuttleworth established his own firm in 2003 called MAKE after spending nearly 30 years with Foster & Partners.

MAKE designs world class buildings that are designed to inspire and effectively perform to meet spacial and functional expectations, while strongly emphasizing energy efficeincy and environmental responsibility.

The main objective and fundamental principle for MAKE is to not meet, but exceed their client's expectations in design work. They hold strongly to the belief to not hold to a strict set of standards or styles to design, but encourage thier clients inputs and challenges at every opportunity. Communication amongst the project is a team process and involves everyone in it at all levels.

MAKE is constantly looking for cutting edge and innovative technology to develop the most optimum design standard possible. They hold to basic, but important principles as a firm to create a studio environment which does not have a sense of hierarchy among people, is very open minded by not letting preconceptions limit their innovation and creativity, and by recognizing personal growth and achievement.
