Karen Rickel, who received her Ph.D. in 2005 received word this past week that her dissertation was selected to be published by VDM Verlag, a German publishing house that published 4000 books annually in economics and social sciences. VDM is one of the leading publishing houses in Germany and Europe and they are committed to work on the body/mind dichotomy and the issues that lead from this problem. Dr. Rickel's instrument to measure mind/body has been solicited by other researchers in the US who are interested in how exercise/movement can be improved.

Dr. Stoll did a review for *Quest*, which examines not only critical issues facing physical educators, but also research developments in the sport sciences and other sub-disciplines of human movement.

Dr. Stoll wrote a letter of recommendation for Jenna Steffan as she leaves Idaho to accept a position at the University of Illinois, and where she hopes to finish her degree. Jenna was a master's student in Leadership in Physical Activity and Recreation.

One more coach finished the Servant Leadership Coaching program, Connie Coulter.

**Coming events:**

- Dr. Stoll will be traveling with Dr. Beller to Montana State to do workshop with football team, July 23 and 24. Montana State is the first Big Sky Team to become a part of the WWC family.
- Dr. Stoll will be traveling to Oklahoma City on Sunday, August 3, with Winning With Character to do a workshop with a high school football team.
- Dr. Stoll will be traveling to Nolan High School, in Fort Worth, TX for a workshop on August 5.
- Dr. Stoll is quoted in a forthcoming October, 2008, article of ChemMatters about the fairness of new athletic technology which improves performance. [http://www.acs.org/chemmatters](http://www.acs.org/chemmatters).
