Journal Reviews

- Dr. Stoll reviewed two articles this week, one for Quest, and one for JOPERD. Quest is the professional journal of the National Association for Kinesiology and Physical Education in Higher Education. Each issue examines not only critical issues facing physical educators, but also research developments in the sport sciences and other subdisciplines of human movement. JOPERD is the American Alliance of Health, Physical Education, and Recreation Alliance’s most frequently published and most wide-ranging periodical. JOPERD is AAHPERD’s cornerstone journal, reaching 15,000 members and providing information on a greater variety of HPERD issues than any other publication in the field.

International Presentation

- Cheryl Weiss, Ph.D., a former research assistant at the Center for ETHICS, was part of a team that presented a workshop at the 24th annual Association for Applied Sport Psychology conference in Salt Lake City, UT on September 16, 2009. The workshop was entitled “Art Isn’t Easy: Using Sport Psychology Effectively With Performing Artists”, during which Cheryl reported how her dissertation research helped collegiate musicians to successfully lower anxiety and raise self-confidence by using a self-talk intervention before and during their juried performance examinations. Her co-presenters were Lois Butcher-Poffley, Ph.D. (former professional Broadway dancer and member of the USOC Registry for sport psychologists) and Len Zaichkowsky (professor of sport psychology at Boston University and Past President of AASP).

Banner Bearer

- Dr. Stoll has been asked to be the College of Education Banner Bearer for the upcoming President’s Inauguration on October 16.

Data Out

- The Center completed analysis of data for Winning with Character’s client Georgia Military Prep School at Milledgeville, GA. Georgia Military Prep is a high school attached to Georgia Military College. This is the first year of work with the Prep school of 249 students.
