EDPUZZLE TUTORIAL

1. Create an Account
2. Create a Class (note: unless approved as an external tool by the institution, grades, student progress will NOT populate into BbLearn)
3. Embed into BbLearn

<table>
<thead>
<tr>
<th>CREATE AN EDPUZZLE ACCOUNT</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Go to <a href="https://edpuzzle.com/">https://edpuzzle.com/</a> and click on the ‘Sign up’ button</td>
<td></td>
</tr>
<tr>
<td>Choose the appropriate designation for your type of account (teacher or student)</td>
<td></td>
</tr>
<tr>
<td>Sign-up (and subsequently sign-in) with either your Google or other email credentials</td>
<td></td>
</tr>
</tbody>
</table>
You will be directed to a screen like this one where you can search for content. Notice the channel choices from the navigation menu on the left.

Search for content that has already been created. If you want to use your own video content (videos you have created) you will need to have uploaded them to YouTube and have the video link for your search.

Once you have chosen the video you will use, you can edit, copy, assign or share that video. Note: It might be best if you copy the existing video and modify the questions, etc. to best suit your own course or assignment needs.

CREATE AN EDPUZZLE CLASS

Click on My Classes
Choose **Create a New Class**

Type in **Name** for the class. **Description** (optional) and click **Create Class when done**
Find videos for your class by typing search terms or pasting the url for the video you want to add to your class/assign.

In this example, the search was for fractions, and the circled video was chosen by clicking on it.
Once you click on the video you can edit the video (add questions, comments) or Assign it to your class.

Once you click Assign you will see this screen where you will choose the details such as which class, due dates, etc.

(Once you assign the video to a class, you will see a screen with an option to share/embed your video)

**EMBED IN BBLEARN**

**In EdPuzzle:** Go to My Classes
And choose the appropriate class you want or create a class.
In EdPuzzle: Click on the assignment you want to embed

In EdPuzzle: Click on Share Assignment
**In EdPuzzle:**
If you want to embed the video in BB, choose the **Copy Code** option.

**In BbLearn:**
Go to the content area where you want to embed the video and click on the **HTML** icon on the text editor menu bar (it is tiny!)
In BbLearn:
On the new box that will appear on the screen, paste the code (Ctrl + v or right-click and paste)

Click **Update** when done.

In BbLearn:
If you see a yellow box back in the assignment text box, you should be ‘good-to-go’.

Make sure to click **Submit** to save the work.
In BbLearn:
Your EdPuzzle video should now appear on the text box.
