

## How-To Embed FlipGrid into BbLearn: STEPS and IMPORTANT INFORMATION

**NOTE:** Flipgrid automatically goes with the email extension of the faculty (i.e., @uidaho.edu).

Instructors need to include the email extension of students (i.e., **vandals.uidaho.edu**) when setting up each topic in Flipgrid.

You must add custom access for both **uidaho.edu** & **vandals.uidaho.edu** email domains to each topic. So, in the appropriate box, every time you create a Topic, you will want to:

Type the **uidaho.edu** and **vandals.uidaho.edu** email domains or individual email addresses your participants will use to access this Topic.

Access Control

Private  Public

**Student Email**  
 Students join using their Microsoft or Google school email.

**Student Username**  
 Students join with a username.

**Add or edit allowed emails**  
Add the email domains or individual email addresses your participants will use to access this Topic.

@uidaho.edu x @vandals.uidaho.edu x

A valid email domain (everything after the @ symbol in your email) is required.

**Guest password (Optional)**  
Add a password for families and guests to join the Topic.

Cancel More Options Create Topic

**In FlipGrid (FG):**

Access your educator account at [admin.flipgrid.com](https://admin.flipgrid.com) to visit your main *My Grids* page.

Click SHARE on the grid you want to embed

**My Grids**  
A Grid is for your classroom or learning community. New to Flipgrid? Check out this [Getting Started Guide](#).

0 seconds of shared learning across your Grids!  
Looks like you're just starting out. Check back later for your first shared learning fact!

Add New Grid 1 Grid

**In FG:** You will see the blue embed option. Click that to copy the HTML embed code.

**Van Bot**  
Anyone with the link and password can view and record.

flipgrid.com/b1776 Copy

`</>`   

**In BbLearn:** Go to your BbLearn course and choose the content area where you want to embed the grid - all content areas should work as long as they have a text editor box.

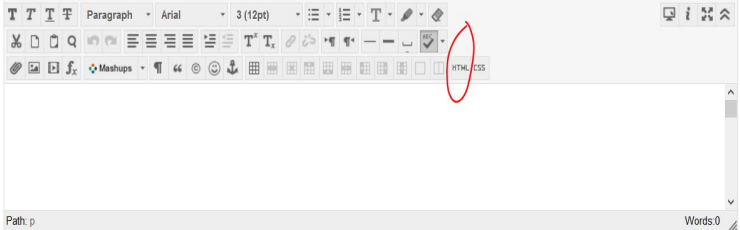

Click on the HTML button (it is tiny!)

HTML code view  Word Wrap

```
<div class="padlet-embed" style="border:1px solid rgba(0,0,0,0.1);border-radius:2px;box-sizing:border-box;overflow:hidden;position:relative;width:100%;background:#F4F4F4"><p style="padding:0;margin:0"><iframe src="https://padlet.com/embed/55s60ip4idgh" frameborder="0" allow="camera;microphone;geolocation" style="width:100%;height:608px;display:block;padding:0;margin:0"></iframe></p><div style="padding:8px;text-align:right;margin:0;"><a href="https://padlet.com?ref=embed" style="padding:0;margin:0;border:none;display:block;line-height:1;height:16px" target="_blank"></a></div></div>
```

Cancel Update

**In BbLearn:** Once you have clicked Update (and any other Bblearn prompts) your students will see the screen to enter the grid to view and participate.

**Note:** The FG system may have automatically set up a requirement for students to have a code/password to enter. You may want to check your settings by clicking on the pencil icon which will take you to this screen.

### Update Grid: Van Bot

A Grid is your community.

#### Grid Details

**Grid Name** Required  
The name for your Grid community.

 7/45

**Flip Code** Required  
Students use this to join your Grid.

 5/20

Accepts letters a-z and numbers 0-9. All letters will be saved in lowercase.

**School Email**  
Students join using their Microsoft or Google school email.

**Student ID**  
Create a list of student IDs to join your Grid **[not for EU]**

**Educator Learning Community**  
Share a public Grid with educators in your network.

**Add a Grid Password** Optional  
Share both the Flip Code and password so your community can join your Grid.

**A few notes to get started** 🙌

- Anyone with the Flip Code and Grid password (if activated) can join and view videos on your Grid.
- To record a video, participants will verify their email using Microsoft or Google.
