Title
Author

Prior Knowledge:
What prior knowledge did you have on this subject?

Applications:
How might the material you learned be applied?

What I Learned About Myself:

What new or existing interests did this material enhance for you?

What impact did the information in this module have upon your values (or vice versa)?

What did you learn about yourself or about others as you worked through the module?

What was your learning experience like? What practices worked best for you?

New Knowledge:
What was the most significant new idea or information you learned?

Connections:
What significant connections can you make between the material you just learned, and the material you learned previously?
