

## How to Access SolidWorks Animation Tutorial

1. Open Solidworks and click the down arrow beside the *Help* question mark ( ? ) in the top right corner of the screen.
2. Select *SOLIDWORKS Tutorials*.

3. Select the *Design Evaluation* tab.
4. Click the *Animation* tutorial and follow the instructions to complete the tutorial (~30 min).

5. Read the instructions carefully. Time well spent on this tutorial (and the additional *Animation* video provided on Mindworks) can save you hours in creating a good animation for your Stirling Engine Mini-Project.
