

College of Graduate Studies
Proposed Catalog Changes
Effective Summer 2018

1. Make the following changes to the Deferred Admission language:

Deferred Admission. The College of Graduate Studies will, on the recommendation of the department/program, allow a student to defer their admission for up to one year. The Graduate College will not defer admission for more than one year.

A [previously admitted](#) student seeking deferred admission must contact the director of graduate studies in the department or program in which they were admitted requesting in writing the deferment. The Director of Graduate studies will communicate with department faculty and determine whether or not to grant the request for deferral.

A departmental memo or e-mail must be submitted from the Director of Graduate Studies to the Director of Graduate Admissions, requesting the deferment. After the Graduate College approves the request, the student's record will be inactivated for the term.

In order to re-activate admission for the new term, the student must [complete the deferred admission application](#)~~submit an Application for Readmission~~ which is available through the on-line application system, [a link to the application will be provided once the deferral has been approved](#). The student will be charged the current fee for re-admission to the Graduate College.

The application for readmission may be submitted any time after the deferment is approved ~~but~~ [and at least one month before registration opens for](#) the newly-selected term [begins](#).

Exception: International students are encouraged complete the readmission application at the same time as the deferral request, due to time constraints associated with their visa paperwork.

Note: [Additional documents may be required to process the deferred admission application.](#)
