

**College of Letters, Arts and Social Sciences  
Proposed Catalog Changes  
Effective Summer 2020**

**SOCIOLOGY AND ANTHROPOLOGY**

1. Create the following prefix (see memo below for full list of SOC courses replaced with CRIM):

**CRIM (Criminology)**

2. Create the following courses:

**CRIM 340 Sex Crimes**

**3 credits**

This course explores various aspects of sexual crimes, offenders, and deviance. Topics may include, but are not limited to, historical and current perspectives of sex offender legislation, victimization issues, theoretical explanations, and processing offenders in the criminal justice system. Special focus on sexual offenses and sexual deviance in various locations and settings.

**Prereq:** CRIM 101

**Available via distance:** No

**Geographical Area:** Moscow

**Rationale:** This course will allow students to have more in depth knowledge on sexual deviance and crimes. In particular, many Criminology students may be working with either sexual assault victims or offenders upon graduation and it would be beneficial to have a greater understanding of the dynamics of the offense and the individuals involved.

**CRIM 434 Crime Prevention**

**3 credits**

This course explores the contemporary field of crime prevention. Core elements include an examination of the social history of crime prevention practices, a review of modern crime prevention theories, an evaluation of modern approaches to crime prevention, such as environmental, situational, community, and criminal justice crime prevention strategies. Particular emphasis on the state of current research and relative effectiveness of different approaches to crime prevention.

**Prereq:** CRIM 101

**Available via distance:** Yes

**Geographical Area:** Moscow

**Rationale:** The proposed course will be designed to provide students with an in-depth evaluation of crime prevention practices in the United States. This course is designed to fill a gap in our current criminology curriculum by giving students the opportunity to develop a deeper understanding the state of current research and best practices in relation to modern community, situational, environmental, and criminal justice strategies for preventing crime and delinquency. This is particularly important for students who intend to seek employment in criminal justice professions (i.e., law enforcement), where they are likely to be tasked with developing, implementing and operating crime prevention programs.
