

**Department of Aerospace Studies
Proposed Catalog Changes
Effective Summer 2020**

1. Drop the following course:

AERO 391 Private Pilot Ground School

2 credits

All aspects of preparation for the FAA Private Pilot Written Test. Additional fees will be required.
Cooperative: open to WSU degree-seeking students.

Rationale: No AFROTC department member is certified as a Federal Aviation Administration Designated Pilot Examiner (DPE). We are not qualified nor capable of preparing students for the FAA Private Pilot Written Test. DPEs at Moscow/Pullman Inter-State Aviation are not considered members of the AFROTC Aerospace Department, and as such, cannot teach a class that falls within our department.
